### 謝牧岐 Hsieh Mu-Chi

#### b. 1981

謝牧岐過去的創作藉著個人的繪畫銜接在地環境與文化脈絡,本次將更專注於繪畫的「行為」本身,他認為畫布上呈現出的顏料的疊加、厚薄等表現其實關乎了繪畫的過程、工法、乃至於創作者自身處於怎樣的狀態。所以便提取了過去學習經驗中尋求不同的材質組合、拼貼、構成的經驗,以繪畫的邏輯與思考去嘗試使用刻版畫的方式顯現出位於畫面底層的顏色,以及編織一層一層堆疊出的顏料,使得顏料不只是疊加在畫布表面的材質,而是成為畫布。

Hsieh Mu-Chi's previous creations had been trying to form a connection between the artist himself and native, cultural development. Recently the artist shifts his focus to the "action" of painting. He believes that the layers and thickness of paint on the canvas are actually related to the painting process, construction methods, and even the state of the creator himself. The artist seeks the experience from past experiment, the different material combinations, collages and compositions, process with painting logic and consideration, he engraves out the depiction to show the color layered at the bottom; and weave the strips of dried paint into sheet to express a different aspect of paint, not just a supplement but becomes the canvas itself.
